

The clinic phone is always answered. The consultation note writes itself.

At opening time everyone calls at once, and in the evening and at weekends nobody answers. Meanwhile, doctors finish their notes after hours. Magic AI Clinics takes all of it on.

24/7

answers at any hour, on the clinic's number and website

Parallel

several calls at once, never a busy tone

RO • EN • DE

patients speak Romanian, English or German

~€1,100

monthly cost of one receptionist in Romania, for a single shift

THE SOLUTION

Three parts that work together.

01 • RECEPTION

The voice assistant

- Books, moves and cancels on the real schedule
- Answers about doctors, hours, prices and test preparation
- Gives the lab results status after an identity check, never values
- Transfers to the reception when the patient asks for a person or is upset

02 • MANAGEMENT

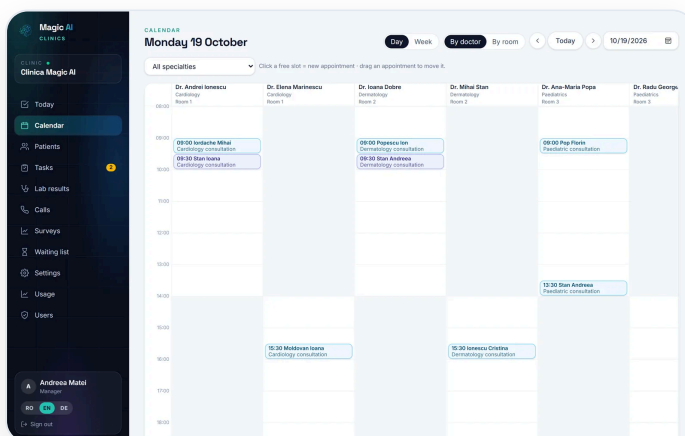

The clinic app

- Today: arrivals, waiting room, in consultation, left; chat, SMS and email
- Calendar by doctor or by room, drag an appointment to move it
- Patient records, lab results, calls with a summary, tasks, waiting list
- On desktop, tablet and phone, in Romanian, English and German

03 • CONSULTING ROOM

The consultation note

- Recording with the patient's written consent
- History, exam, investigations, conclusions, ICD-10 proposal, recommendations
- Validated by the doctor; audio deleted after transcription
- Recommendations emailed to the patient, if the doctor wants

THE ASSISTANT ALSO CALLS

It doesn't just answer.

- 1 Reminders 24 h and 2 h before**
The patient confirms, moves or cancels during the call; SMS only if they don't answer.
- 2 Call back at the requested time**
Plus calls requested by staff, with the outcome in tasks.
- 3 Urgent result**
The doctor flags a result "urgent"; the assistant calls to book a follow-up.
- 4 Doctor unavailable**
The assistant calls the affected patients and reschedules them.

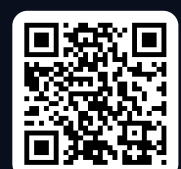

SECURITY AND GDPR

- Introduces itself as an AI assistant; no medical advice; emergencies to 112
- Personal ID and medical data encrypted; audit log; export and erasure
- Consultations recorded only with written consent; audio deleted after transcription

Call the demo clinic. Ana answers in English too.

Book, move or cancel an appointment as a patient. Narrated presentation and interactive offer online.
